

## Youth Protection and Harassment Prevention Resources

Just like your business, your Rotary club is responsible for the safety of the youth you work with and for the protection of your members. As the leader of your club, you must ensure your club is a safe environment for everyone.

There are several resources at your disposal:

1. **Rotary Youth Protection Guide 775en** download from [www.rotary.org](http://www.rotary.org)  
<https://my.rotary.org/document/rotary-youth-protection-guide>

This document guides you through the steps to ensure your club members are interacting safely with youth. It includes a step by step guide for handling complaints.

2. **Rotary Learning Center** on [www.rotary.org](http://www.rotary.org)

### **Preventing and Addressing Harassment program**

This is a 45-minute training program that covers how to handle harassment of all types.

### **Protecting Youth Program Participants**

This is a 30 minutes training program that focuses specifically on working with youth in a safe and supportive manner to ensure the best outcomes for everyone.

3. **District Leadership**

If you have concerns, talk to someone and ask for help if you need it. You and your club are not alone. Talk to your District Governor or a Past District Governor. Your District likely has a Youth Protection Officer you could talk to as well or a District Legal Representative. Don't keep it to yourself, reach out for advice or assistance.
